# MAYOR'S INAUGURAL ADDRESS

62389 ——— PhCnb Somersworth 1932-33

*Gentlemen of the City Council:*

We are again assembled to perfect an organization which will assume the administration of the affairs of our city for this coming year. As we have accepted our respective offices, so, too, must we accept the duties and responsibilities that go hand and hand with them. Our duty is to legislate and to execute; that of our citizens is to accept that legislation and to lend it their complete support. This situation can be acquired only by the keenest study, on our part, as to just what the needs of our citizens are, and how we, by our actions, can best fulfill them.

So far as I can see, there is no reason why the closest relationship cannot exist between the governed and those who govern. I made this statement, knowing that every member of this council is a man of experience in municipal affairs, and because of that experience is fully aware of the honest study that should be made of all civic problems before any action is taken. Only by such a close scrutiny of our affairs, can any degree of success be attained.

According to figures presented by our city clerk, I find the financial status of the city to be as follows:

FINANCIAL STATEMENT, MARCH 1, 1931

| | |
|---|---|
| High school bonds | $104,000.00 |
| Refunded water works and general indebtedness bonds | 33,000.00 |

| Net debt, March 1, 1931 | $154,074.98 |
| Net debt, March 1, 1932 | 188,112.06 |
| Net increase of indebtedness, March 1, 1932 | $34,037.08 |

For my part, I am not unmindful of the fact that this is the tenth consecutive year that the voters of this city have honored me by selecting me as their

mayor. As I have, in the past, acknowledged this confidence reposed in me, by my most sincere thanks, so do I, at this time, extend my most sincere appreciation to those, whose loyal support placed me in this office. My one hope is, that not by empty words, but rather by beneficial acts may we prove to them that their selection was in no way erroneous. By this statement, I by no means, wish to convey the idea that my thoughts shall be restricted to any one faction, whatever differences of opinion that may have existed, whether they be pertaining to the various sections of our city, or to political factionalism must have no bearing on any of our administrative projects.

The pursuance of such a policy would, unquestionably, result in failure to ourselves as well as to those whom we are to serve. Let there be no mistakes made in our future works because of a limitation of vision. Whatever our project, it must carry with it a civic value that will be of benefit to all of our citizens regardless of section or party. For only by such a united effort can we hope to reach the highest degree of success.

Last year, at my inaugural, I discoursed at length on the outstanding problem of the time that confronted every section of our country—unemployment. I suggested my plan of relief, and insofar as I was able, I followed it through during the year. Our citizens *were* given employment; our traveling facilities *were* improved; our plan *was* a decided success. Unfortunately, it was of a temporary nature, and we find ourselves beginning a year with the same economic problems before us. It is again our task to meet those problems and find for them a solution that will carry with it no extra burden on our tax payers.

As there are no further extensive improvements to be made in our city, it is my opinion that we must

employ an entirely different method of procedure. We must adopt a policy of drastic economy. By this I mean curtailment of expenses in every branch of our government. I am recommending this as a remedy to all departmental heads and expect that it shall be handed down by them to every individual in their employ. If this co-operation is given, I feel certain that we shall surely reach our desired goal and instill an enduring confidence in those good citizens who have made us the custodians of their affairs. It is no longer a choice, it is a necessity. The conditions of labor now existing in our community are such that we cannot expect the taxpayer to bear increased burdens. On the contrary, we must devise some plan by which he may hope for immediate relief.

I do not make these statements with the intent of instilling fear into your hearts, or to take from you the confidence that conditions must improve in the future. I merely want the impression firmly placed in your minds that we have lived our past and their conditions have been met and conquered, and that we *must* live our present and meet those now existing conditions with only such remedies as will give us a relief that is financial as well as social.

Considering the conditions of labor and the large number of our citizens out of employment, the condition of our finances is, indeed, worthy of our attention. And wherein, it is not decidedly unfavorable, it must be our sincere purpose to improve upon it during the coming year. The past year our school bonds were reduced $7,000.00, while our miscellaneous notes and bonds, and our water works and general indebtedness bonds were reduced $3,000.00, and $12,500.00 respectively. It was necessary, however, to issue the new highway improvement bonds to the amount of $60,000.00, which amount with the $45,000.00 received

from the state enabled us to carry out our program of highway improvement, thus helping us to relieve the then existing condition of unemployment.

These bonds, like all other bonds must be retired, regardless how worthy the cause of their issuance. And as I have previously so firmly stressed my desire to do everything within my power to prevent further taxation burdens being imposed upon real estate, I can see but one source open to us for additional revenue and that is, and must be, through the curtailment of the expenses of our city government. As our citizens must favor rigid economy and retrenchment in these times of dire distress, so do I favor them, and in the honest performance of your duties, so too, must you accept this policy. There is no alternative. We must conserve the resources of our people by practicing economy to the very limit and by keeping our taxes to the minimum. Only by such actions can we ever hope for a restoration of normal times.

Each one of our departments is in very good condition. As I can see no possible increase in our valuation this year, our retrenchment policy must be adopted by each and every department. This means that I shall recommend a decided change in our budget and at the same time expect each department to make such curtailments as will allow it to function within its alloted appropriations. I make no assertions in the spirit of criticism unfavorable to any of the departments or their heads. Their desire to minimize costs goes without question. I have not lost sight of this fact. Neither have I lost sight of the fact that the welfare of our citizens must receive our earnest consideration. Our industrial conditions are ever changing. As our standard of prices on the necessary commodities of life decrease so must tax rates on our citizens decrease, and it is my desire that the change in our tax

rate shall be in proportion to whatever change we can bring about in our budget. In a word, it is my desire and expectation that every department shall, during the course of the coming year, produce results comparable with those of the past year with an extremely reduced appropriation.

This year I am making no specific recommendations for improvements in any of the departments. I feel satisfied that the condition of each department is satisfactory and that by prudent expenditures, it can be so maintained.

The watchword throughout the year must be economy, that whatever expenditures are made must be thoroughly supervised, so that not one penny of our public funds shall be used excepting that it be a case of absolute necessity. You may believe me when I say that my attitude toward every department is extremely friendly as, I am sure, is their attitude toward me. For this reason, if for no other, I am expecting them to unselfishly assume the burdens of their respective offices, as I am assuming mine, and create among their employees an atmosphere of conservation.

Industrial conditions, as I have before said, demand it. Our banking conditions warrant it. For where it was possible to borrow our money in anticipation of taxes the past year for 2½%, we now find ourselves compelled to borrow under the heavy interest rate of 6% or over. Is it any wonder that I again and again, repeat the word curtailment? You can readily see that this drastic change in our bankers' loans, must compel us to discontinue our former practice of borrowing in large sums, and adopt a new policy of obtaining our loans in small amounts on such occasions as we deem it necessary. Whenever those occasions arise, I shall feel free to call you together for a gen-

eral discussion of the merits of the expected expenditure; and if, after careful deliberation you feel that such a disbursement is necessary, then, and only then, shall it receive my approval.

Gentlemen:

I have attempted to impress upon your minds the serious obligations of your office. I have made no recommendations for improvements in any department, considering it a wiser policy to deal with such only when they arise and only when they shall be absolutely necessary, and the welfare of the citizens and tax payers of this municipality have compelled me to follow this course. To me it is the only kind of economy that we can practice and feel that we are keeping faith with those good citizens who have entrusted their affairs in our care. I trust that our relations throughout the year will be as harmonious as they have been in the past, and that your sincere co-operation will be always present on any program that will tend to reduce the cost of government. Ours is the responsibility, and we must stand or fall by the results of our policies. Let us make them so strong, so sound, that our achievements during the year shall receive and be worthy of the highest approbation and esteem of our citizens. Only by such a successful administration as this shall we be able to show them that their confidence has been honored.

---

Rochester, N. H., September 12, 1932.

Mayor Peter M. Gagne
Somersworth, N. H.

Dear Sir:—We would like to apply for permission to lay a new gas main for twelve hundred fifty feet along the east side of Main street, in Somersworth.

This will be a six inch main, laid to a depth of three feet, and will run from the Dwight Manufacturing Company's driveway, south, to Wallace street. The stretch will be well over on the east side of the street, just on the edge of the pavement. I think the entire job will take between ten days, and two weeks, but wish to assure you that we will rush the work so that the road will be torn up no longer than necessary. We, of course, will guarantee to replace the street and surface in as good condition as it is today, and will welcome any inspection that you may wish to make of the job. We will also endeavor to employ as much local labor as possible; and we would like to get started on this job towards the end of the month.

We will greatly appreciate anything that you may be able to do for us in securing the permission of the City Council.

Respectfully submitted,

W. V. RIDGWAY,
*Manager.*

The foregoing permit was granted on condition that the Strafford York Gas Company agree to the conditions as recommended by the City Solicitor, especially to paragraphs 1, 2 and 3, of agreement, at meeting held October 4, 1932.

---

Dover, N. H., July 23, 1932.

*To the Mayor and City Council of Somersworth, County of Strafford, State of New Hampshire:*

The Twin State Gas and Electric Company, a corporation duly established by law, and doing business in said Somersworth, respectfully represents that it desires to construct a line of poles and wires, with the necessary equipment thereon, in said City of Somersworth, beginning at the present terminus, on the fourth pole on Maple street, southerly of the intersection of said Maple street and West High street; thence, continuing in a southerly direction along said Maple street, five poles, to the residence of Norman Fournier.

Wherefore, it respectfully requests your Honorable Board to grant locations for said poles along the highway, more specifically set forth above; license to string thereon the necessary wires and other equipment, for the distribution of electric current, in said City of Somersworth.

Respectfully submitted,

THE TWIN STATE GAS AND ELECTRIC COMPANY,
By Joseph P. Piper, Superintendent.

The foregoing petition was granted at meeting held October 4, 1932.

---

*To His Honor, the Mayor, and City Council:*

Gentlemen:—Your undersigned petitioner respectfully petitions your Honorable Body for a permit to

erect an electric sign at 70 Market street, to be supported from the building, and from a pipe from the outside of the curbing.

Respectfully submitted,

GEORGE STAMAT.

A committee of two, Councilmen Deshaies and McKeon, were appointed by the Mayor, in conjunction with the Street Commissioner, having power to either grant or reject the petition at meeting held December 5, 1932.

---

Somersworth, N. H., October 1, 1932.

*To His Honor, the Mayor, and City Council:*

Gentlemen:—Your undersigned petitioner respectfully requests your Honorable Body for a permit to install two gasoline pumps on the property, known as 198 Main street.

Respectfully submitted,

EDWARD BEAUCHEMIN.

We, the undersigned property owners hereby give our consent for the installation of the above mentioned pumps, under the provisions of the City ordinances of the City of Somersworth, N. H.

Ernest Lagueux, 198 Main street; Mrs. Eliza Morin, 161, 163, 165 Main street; Clement P. Roy, 199 Main street; George J. Frechette, 195 Main street; Peter Perreault, 189 Main street; Alfred J. Boucher, Dwight Manufacturing Company, by Henry C. Harden; Mrs. Vezeau, 193 Main street.

The foregoing petition was granted at meeting held November 1, 1932.

---

Somersworth, N. H., February 7, 1933.

*To His Honor, the Mayor, and City Council:*

Gentlemen:—Your undersigned petitioner respect-

fully petitions your Honorable Body for a permit to erect an electric sign, to overhang the sidewalk on the property located at 198 Main street.

Respectfully submitted,

EDWARD BEAUCHEMIN.

# ANNUAL REPORTS

OF THE

# Several Departments

OF THE

# CITY OF SOMERSWORTH

FOR THE YEAR

ENDING FEBRUARY 28, 1933

## REPORT OF THE CITY SOLICITOR

Somersworth, N. H., March 1, 1933.

*To His Honor, the Mayor, and the Honorable City Council:*

Gentlemen:—I submit herewith my report as City Solicitor for the year ending February 28, 1933.

I am happy once more to report that at the present time there is no litigation in any court in which the City is interested either as party plaintiff or party defendant.

During the past year the majority of the cases before our court were for violation of the automobile laws. The other cases consisted mostly of cases for drunkenness and liquor law violations.

It is a commendable fact that during this period we have had practically no juveniles brought before the court, which should be pleasing to all.

There have been a few cases of breaking and entering, but considering the trying times of depression the record as a whole is a commendable one and much credit for it is due the good citizenry of our City.

Respectfully submitted,

THOMAS J. MCGREAL,
*City Solicitor.*

## CITY CLERK'S REPORT

Somersworth, N. H., February 28, 1933.

*To His Honor, the Mayor, and City Council:*

Gentlemen:—I herewith submit my report for the fiscal year ending February 28, 1933:

| | |
|---|---|
| Dog licenses | $70.00 |
| Miscellaneous licenses | 170.83 |
| Automobile registration permits | 3,871.52 |
| | $4,112.35 |
| Transferred to City treasury | $4,112.35 |

Respectfully submitted,

NAPOLEON A. BERUBE,

*City Clerk.*

## REPORT OF THE BOARD OF HEALTH

Somersworth, N. H., March 1, 1933.

*To His Honor, the Mayor, and City Council:*

Gentlemen:—I hereby submit my eleventh annual report for the fiscal year ending February 28, 1933.

*Inspections*

| | |
|---|---|
| Schools and disinfecting | 5 |
| Dwelling houses | 50 |
| Stores | 38 |
| Dumping places | 4 |
| Complaints from other sources | 75 |

*Contagious Diseases Reported*

| | | Died |
|---|---|---|
| Diphtheria | 5 | |
| Scarlet Fever | 65 | 2 |
| Measles | 6 | |

Respectfully submitted,

HONORE GIRARD,

*Sanitary Officer and Secretary of the Local Board of Health.*

## STREET COMMISSIONER'S REPORT

Somersworth, N. H., March 1, 1933.

*To His Honor, the Mayor, and City Council:*

Gentlemen:—In accordance with the provisions of the City ordinances, I herewith submit my fourth annual report for the fiscal year ending February 28, 1933.

### *Streets*

All streets have been kept clean, and also all highways cleared of stone, or other matter, liable to impair good travelling, and put in good condition, and where grading was necessary improvements have been made.

All trees in the City that were useless were cut down.

We completed gravelling and oiling the following streets: Lincoln street, to the residence of Leroy A. Guptill; also a part of Emery street, to the residence of John Bean; Page street, as far as the Murphy residence, so-called; Myrtle street, to the residence of Mrs. Jerry Murray; also gravelled the George B. Moore Road, from Green street to the Rollinsford line; and graded other streets, where necessary.

All the tarvia topped streets in the City have been oiled.

I would recommend gravelling Pearl, Hanson, Fayette and Elm streets, and completing Myrtle street and Locke avenue.

Respectfully submitted,

EDWARD G. LETOURNEAU,
*Street Commissioner.*

# FIRE CHIEF'S REPORT

---

Somersworth, N. H., March 1, 1933.

*To His Honor, the Mayor, and City Council:*

Gentlemen:—I herewith submit to you the annual report of the Fire Department.

## ORGANIZATION

Chief—Edward L. Flanagan
1st Deputy—Gedeon J. Turcotte
2nd Deputy—John O'Neil

### *Department*

Captain—Napoleon Couture
1st Lieutenant—Rodolph Gagne
2nd Lieutenant—William E. Reynolds
Clerk—John R. Hodsdon

### *Drivers*

George Heon, Dolor A. Houle,
Ernest Heon, Arthur Nadeau,
John R. Hodsdon

### *Mechanic*

Eugene J. Morin

### *Committee on Fire Department*

George T. LeBel
John F. Beamis
Philip Dumais

### *Apparatus*

One American LaFrance Triple Combination hose, pump and chemical.
One American LaFrance City Service Truck, ladder and chemical.
One hand-drawn emergency hose reel.

One hundred thirty-four alarms were responded to, including general, still and telephone calls.

Sixty-two permits to burn grass, leaves, etc., were issued.

Five drills are held regularly in the schools.

Chemicals in the public buildings are kept charged and located where easy to get at if needed.

Woodlands are kept posted with forest fire warnings and closed during dry spells.

Inspections to eliminate fire hazards are conducted.

Traffic conditions at the time of a fire alarm are handled with the cooperation of the police department.

The dry spell, during the month of April, resulted in a large number of alarms for grass and brush fires. These, with other alarms, and telephone calls investigated, have made the past year quite a busy one.

As I have stated in former reports, I am of the opinion that an additional light motor piece of apparatus will add to the efficiency of this department.

Respectfully submitted,

EDWARD L. FLANAGAN,
*Fire Chief.*

Afternoon, 12:30-12:45.

*General Rules*

Firemen as well as citizens should familiarize themselves with the following rules for giving alarms of fire.

1. Never pull a box for a fire seen at a distance.

2. Never pull a box while the alarm bells are ringing, not until a box has completed its four rounds. Two boxes cannot operate together, and neither will work if two are pulled at the same time. Never pull two alarms of two boxes for the same fire.

3. To ring in an alarm, break the glass in the keybox and open the outside door with the key. Pull down the brass crank seen inside, till it stops, then let go. Then let the box alone. The clock will be seen or heard to be running, and the alarm will follow in half a minute or so. Close the door, but do not try to remove the key, as it is locked in track lock and can only be removed

by a release key, which is carried by each engineer, who will, as soon as convenient, release and return it. Remember that the firemen will come directly to the box which has been pulled, and be sure that someone stays at the box to direct them to the fire.

4. Never pull an alarm for a fire seen at a distance. Never touch a box except to give an alarm of fire. Give an alarm for no cause other than actual fire. Don't give an alarm for a chimney fire.

# REPORT OF THE LIBRARIAN OF THE SOMERSWORTH PUBLIC LIBRARY

---

Somersworth, N. H., March 1, 1933.

*To the Trustees of the Somersworth Public Library:*

Gentlemen:—Herewith is presented your Librarian's report for the year ending February 28, 1932.

The business of the Public Library seems to be one business that thrives in depression. The demands for books and the services rendered to the public are greater than ever. In the last twelve months the circulation of books in our library was 37,519; this record is at once a measure of the interest in reading among the public and of the service the Public Library is rendering in this city.

This "good business" in the library is due partly to unemployment, since reading offers the easiest avenue of escape from personal depression and is often the only recreation many can afford.

The library has carried on courageously under a decreased budget; hours had to be shortened, printed lists of additions discontinued, telephone disconnected, our magazine subscription list decreased, binding of periodicals eliminated, rebinding of books curtailed; a regular assistant was dispensed with and her bill for occasional services is now paid by the Librarian.

Libraries can maintain for a time with reduced book purchases, but these libraries are living on their capital; increased circulation causes books to wear out more rapidly and collections which have been carefully built up over a long period of years are depleted unless their stocks are replenished. In these days of financial stringency it has not been possible in our library to replace all the much-used books with new

copies, although it has been done to some extent; a great amount of book mending has become necessary that the books may have a longer lease of life.

However, the Librarian has endeavored to maintain the usual standard of additions of new publications added regularly the first and fifteenth of every month, as has been our method for years. To make library service effective without keeping up to the times with new books and replacements of old ones is a well nigh impossible task. We have added as many volumes of permanent value as possible. The use of open stacks has introduced readers to books of which they had never dreamed.

In spite of all the extra work to be done, the Librarian met the situation conscientiously, working many hours when the library was not open, in order to meet the demands without impairment of service and that the library should not fail to meet its obligations to the community.

The following statistics show what has been done in the library during the year:

| | |
|---|---|
| Number of days open | 259 |
| Number of volumes added | 435 |
| Number of volumes at end of the year | 16,744 |
| Number of volumes of non-fiction loaned | 6,579 |
| Number of volumes of fiction loaned | 30,940 |
| Total circulation | 37,519 |
| Number of registered patrons | 3,200 |

The 6,579 volumes of non-fiction which we loaned were divided into the following classes:

| | |
|---|---|
| General works | 130 |
| Philosophy | 147 |
| Religion | 52 |
| Sociology | 630 |
| Language | 24 |
| Natural science | 284 |

| | |
|---|---|
| Useful arts | 471 |
| Fine arts | 502 |
| Literature | 637 |
| History | 393 |
| Travel | 369 |
| Biography | 418 |
| Current magazines | 2,103 |
| Pamphlets | 81 |
| Books in French language | 280 |
| Pictures | 58 |

The Librarian takes this opportunity to thank the Trustees for their cooperation throughout the year.

Respectfully submitted,

MRS. LEONA H. SAVITHES,
*Librarian.*

## REPORT OF SUPERINTENDENT

Somersworth, N. H., March 1, 1933.

*To His Honor, the Mayor, and City Council:*

Gentlemen:—Herewith I submit a report of the affairs of Forest Glade Cemetery for the year ending February 28, 1933.

*Receipts*

| | |
|---|---|
| Appropriation | $2,400.00 |
| Receipts | 1,005.44 |
| Trust fund income | 1,471.72 |
| Total | $4,877.16 |

*Expenditures*

| | |
|---|---|
| Labor | $4,683.33 |
| Supplies | 572.93 |
| Total | $5,256.26 |
| Overdrawn | $379.10 |
| Uncollected bills, 1932 | 383.00 |

The expenditures in maintaining the cemetery grounds the past year shows a decrease of approximately $920.31, due partly to the reduction in wages and the efficiency and cooperation of the men employed in this department this past year.

The same system which we have developed in the caring of the lots and grounds, which allows for the mowing of the perpetual and annual care lots at least five times throughout the season, and the upkeep and care of the neglected lots and avenues has been continued as in the past.

There has been an increase of $1,412.50 in our trust fund, which includes an additional seven new lots for for perpetual care and the balance we have received for an increase on lots which did not have the necessary amount to insure the proper care. Our trust fund is increasing each year which is very encouraging, but at the present rate of interest we are not receiving the full amount which we expend on these lots as for the past two years there has been a decrease of $278.62 from the amount we received in 1930.

I wish at this time to express my thanks to the Mayor and the Board of Trustees and all those who have assisted me the past year.

JOHN R. HODSDON,

*Superintendent.*

# REPORT OF THE SUPERINTENDENT OF THE SOMERSWORTH PUBLIC SCHOOLS

*To the Honorable Board of Education of the Somersworth Public Schools:*

I have the honor to present for the fifth time an annual report.

In my last report I said: "The depression has not yet hurt the morale or the efficiency of our schools, but I fear for the future. Ours is a business which must go on. Time lost or subjects curtailed now can never be made up. We must see to it that the present generation receive as good schooling as those of the past ten years." This last thought has been constantly in my mind as a working motto.

We have completed the year with one less teacher in the elementary schools, combining the former two sixth grades into one. Fortunately most of the pupils transferring from the Parochial schools of the city entered other grades, making this combination possible. The very unfortunate burning of the Chandler School made unusual adjustments necessary. An inspection of the Union Street School building showed that it had been thoroughly ransacked and everything which could be carried off had been taken, even to the brass catches on the windows and lead pipe from the sewer connections. There was no heating plant available, so the reopening of this building was considered not feasible. By placing in the Burleigh School some of the desks saved from the fire, so that large pupils might be accommodated in the lower grade rooms, we were able to use this building in the following manner: Grades 1, 2, 3, 4, and 5 reported at 8 o'clock and remained until 12 o'clock. Grades 6, the two 7ths, and the Special grade reported at 12:50 and remained until 4:50. The

Manual Training and the Domestic Science of the 7th grades still continued to be given in the morning. The eighth grade was accommodated in the High School by the study pupils of the High School being grouped in rooms with recitations going on and small high school classes being held in the so-called "Nurse's room." Thus the upper elementary grades lost little time, although some pupils were put to some inconvenience. The public has been very patient and not a single complaint about the plan has been made at this office.

We expected a year with more than the normal amount of sickness and such has been the fact. Our attendance has been the lowest for five years, although it is still commendably high and the number of tardy marks very few. The scarlet fever, although never in the epidemic stage, has been persistent and has just died out. We may expect a few cases next year. Not a single case of diphtheria has been reported among the public school children since the Toxin-Anti-Toxin Clinic held two years ago. Read the report of your nurse.

The new Bolenius Course in Reading is giving good satisfaction in both first grades. After the fire a new language course and a new geography course were introduced and our text books are now modern in their scope.

No formal school affairs have been held in the elementary grades, as it must be obvious to all, that with the break up of the schools and the loss of an assembly hall, entertainments would have to be held in the school rooms. The Memorial Day programs were also somewhat curtailed. Less than the usual number of teacher meetings have been held, due also to the irregular hours of the schools. The fundamentals of the schools, however, have not been neglected. The Lippincott Spelling Tests and the Public School Achievement tests in Arithmetic in Computation and Reasoning,

have been given, and not a grade fell below the standard in any of the three tests. The Otis Intelligence Tests were given to Grade 8 and Grade 9. The State Department gave some tests to the high school seniors and these are commented upon in the report of Headmaster Uniack.

As last year, graham crackers and milk have been furnished at cost to pupils in the elementary grades and given free to such pupils as could not afford the purchase, these pupils being selected by the teachers and nurse. On March first the State Board of Education announced that the United States Government had made available a sum of money to supply free milk and this was continued to May 26 and the number receiving free milk was doubled. The Parochial schools were also provided with the free milk, the bills being approved by the nurse and checked and forwarded for payment to the State Department of Education by this office. From 10,000 to 12,000 half-pint bottles of milk have been distributed in the State daily. To my mind this has been one of the finest relief measures possible, since it has enabled many pupils to be built up in health or kept healthy during trying times at home.

Athletics in the High School have had to pay their own way and while the school has not produced any outstanding teams they have played games with schools out of their class and made records of which they need not be ashamed. More girls took part in basketball in the intramural games than ever before.

Teams in French and Chemistry took part in the "Battle of Brains" held at Plymouth and Keene Normal schools in May. Neither school team placed among the winners.

An exhibit of the Manual and Domestic Arts Departments, together with the work of the Drawing

Teacher, was held in June. Work of a high order was displayed. Much of the work done by the boys cannot be exhibited since it consists of repairing maps, doors, windows and equipment about the schools. Sixteen seats and desks saved from the fire were completely rubbed down, repaired and refinished as good as new. A large part of this work was done by the boys of the Special Grade.

At this writing the remodeled Chandler School is nearing completion. There are many improvements, especially in the sanitary arrangements and the work of reconstruction has been of the best. The building is one in which the citizens of the city may take a just pride. The gift of a piano has been made to the Chandler School by the Littlefield Woman's Relief Corps and Mr. William Symes has replaced the statue of Paul Revere which was destroyed by fire. Mr. Symes also gave the one destroyed. The graduates of the Class of 1933 of the Chandler School presented a large picture. Miss Mary Eastman of the Class of 1881, Somersworth High School, gave the City of Somersworth one hundred dollars to be known as the Richard Royal Eastman Memorial Prize Fund and the interest is to be given annually to the student in the Senior class of the Somersworth High School who has maintained the highest scholastic standing during the year. For these gifts we are grateful and hope that other interested citizens will follow the example of the givers. The removal of the fire whistle and compression pump has eliminated a source of noise which very frequently interrupted classes. When financial conditions warrant the expenditure, the Burleigh School building should be renovated. However, good schools do not necessarily require good buildings. The teacher and the pupils make the school what it is and what it should be.

Informal debates have been held by pupils from the English classes with Berwick Academy and Newmarket High School. Much interest was taken not only by those taking part, but by the entire school. A one-act play was written for competition with other high schools of the state.

The discipline of the High School has been unusually good and the spirit excellent. This has not been brought about by pressure either from the inside or the out, but is due to the earnest efforts of both pupils and teachers to maintain a school of high standards. We all take pride in *our* school. Our graduates are making good in the colleges and advanced schools of learning to which they are going. In the last five years 42% of our graduates have gone further to school. Very few high schools can report so high a percentage.

*"The American High School seems to be the rightful inheritance of most of America's children. A wise school will not neglect to give its children such facts and skills as will enable them to make use of this inheritance of the high school."

I am very much pleased to know that the school board realizes that our school is meeting the needs of the community and insists, in spite of financial difficulties, that its efficiency shall not be impaired.

In a recent address the President of the National Education Association said: "The greatest duty of any parent is found in the training and education of his children. Education is a debt which age owes to youth. Children only grow up once. Whatever may be our economic difficulties we cannot afford to neglect the education of our children."

If any greatness has been achieved by the State of

New Hampshire and this community it is due to sacrifices which parents and communities have made, when they believed that the education of their children took precedence over all other matters. I am indeed grateful for the support of the school board and the whole hearted cooperation of a loyal corps of teachers.

Respectfully submitted,

HOWARD L. WINSLOW,

*Superintendent of Schools.*

# REPORT OF HEADMASTER OF HIGH SCHOOL

*To the Superintendent of Schools and Members of the School Board:*

In submitting the annual report of the High School it seems advisable this year to dwell upon a few phases of our work which are not as well known to the general public as are those which are more closely connected with the various curricula.

During the past few years the State Department of Education has been striving, by means of standardized tests, to correlate the work of the secondary schools throughout the state. In the spring of 1933 three such tests were given to the members of the Senior Class. The Otis Test, the Woody-McCall test, and the Iowa Placement test were given in the order named. The first is a general intelligence test; the second is used to determine how well our knowledge of arithmetic has been maintained; and the Iowa test covers the rather broad field of English, stressing spelling, punctuation, and the rules of grammar and good taste. While the results of such tests are not conclusive yet they do point out weaknesses which might otherwise escape our attention. It is true that while these tests do not reveal many prodigies they do indicate that in all three tests our group median is well above the standard median.

A welcome trend this year, and one which was of advantage to the school no less than to those who participated, was the marked increase in the number of post graduate students. Practically all of them elected the commerce curriculum and one boy, in addition to the commerce, devoted much of his time to Manual Arts. This choice would seem to indicate the popularity of the practical courses especially during

the last years of school. And in this connection we wish to point out that the school is ever ready to help young people of Somersworth. Nor does this mean its own graduates exclusively. We refer also to those who, for financial reasons, are unable to attend the full four years and consequently may desire to take special or partial courses.

Our total enrollment this year, inclusive of the post graduate students, was 162. As to their choice of curricula, the desires of these young people appeared to be about evenly divided, approximately one third taking the commerce course, one third the academic, and the remaining third electing practical arts. In regard to the division of subjects, some of which are required and some elective, it is rather interesting to note that the number in each group bears, with the exception of English and French, approximately the same percentage ratio to the total enrollment, i. e. about one in four.

There is but one change contemplated in the curriculum for next year. In the Commercial Course, Junior Business Training will be substituted in the ninth grade for the more formal bookkeeping. This is largely a change in name rather than in subject matter because much of the material used will be identical with that given last year but will be presented in much simpler form. In the tenth grade, bookkeeping will be studied, as formerly, for the full year while the study of stenography and typewriting will be deferred until the beginning of the eleventh grade. We feel that this change will be welcomed by those who may desire to establish a foundation in academic subjects during the first two years of their high school course and then transfer to the commercial subjects for their last two years. Under the contemplated change this transfer will be made with a minimum loss. Some time ago these transfers, made in passing from the

tenth to the eleventh grade, worked out very satisfactorily; but more recently, because stenography was begun in the middle of the tenth grade, we have been unable to effect such transfers.

The certificate privilege of the new England College Entrance Certificate Board has been granted our school for a period of four years. This is the longest term for which the privilege is granted and as a rule it is given only to those schools whose graduates do eminently successful work in those colleges which sponsor the board. At present one or more of our graduates are enrolled in the following colleges of the Association: Simmons, Bowdoin, Tufts, Wheaton, Wesleyan, and Pembroke.

Respectfully submitted,

JOHN R. UNIACK,

*Headmaster of the High School.*

## REPORT OF SCHOOL NURSE

*To the Superintendent of Schools and Members of the School Board of Somersworth, N. H.:*

Gentlemen:—It is with pleasure that I respectfully submit my annual report as school nurse in Somersworth.

A collection of food including all kinds of vegetables, canned goods, flour, etc., was donated by the public school children and thirteen baskets were made up and distributed to worthy families for their Thanksgiving dinner. Plans for Christmas baskets were under way, but due to the fire in the Chandler School and the clos-

ing of schools a week earlier at Christmas time, the plans were cancelled.

An amount of money was allotted the State of New Hampshire by the Federal Government to be used in the distribution of free milk in the schools. Ninety-nine bottles were given daily to underweight people for eleven weeks.

The Red Cross in the state furnished flannel, sweaters, mittens, overalls, and a great many school children benefited therefrom.

Again, I must thank the Philanthropic Department of the Woman's Club for the splendid work they did in sewing for the needy children in the schools.

Home visits and instructions have been given the parents whenever it was deemed necessary during the school year.

We hope that with the business conditions improving, parents will be able to have more of their children's defects corrected.

I wish to thank the School Board, Superintendent, Teachers, and Parents for their helpful cooperation during the year.

Respectfully submitted,

DOROTHY A. KAVANAUGH,

*School Nurse.*

## REPORT OF MANUAL ARTS INSTRUCTOR

---

*To the Superintendent of Schools and Members of the School Board:*

The aim of the Mechanic Arts course of study is frequently misinterpreted. This has in many cases misled boys who have come to high school into entering courses of study for which they are not best adapted.

The real aim of the high school of today has changed greatly from the old Latin or college preparatory systems, to a better adapted system of curriculums that meet as much as possible the different types of boys and girls who in the past have not had sufficient opportunities to develop the abilities that they have had. For the boy who several years ago had no chance of competing with the college preparatory type, a system of arts subjects has been introduced which I believe statistics will prove has increased our high school enrollment by thousands. These boys are present here in Somersworth, and should have the same opportunities as those preparing for collegiate work. Those who have technical ability and enjoy practical mechanical procedures have a chance to try themselves out before making a definite choice of a life's occupation.

The Arts Course presents the following subjects: Woodworking, Mechanical Drawing, Electrical appliances, Automobile Mechanics, and Economics, as well as the regular subjects of English, Sciences and Mathematics. These subjects will not make a carpenter or electrician of these students, but they will prepare them with a background that they can use to great advantage if they plan to make a life work of any technical occupation. The confidence that these boys

have gained in themselves has placed them on a level with the college preparatory group and has been a vital factor in keeping them in school.

The high school classes have been the same as in the past few years. We have repaired several desks and seats from the Chandler School, as well as the regular work and repairs of the High School. The Electricity class has completed several pieces of apparatus for experimental use in practical electrical problems.

A discussion on the merits of Electrification of Railroads versus the Steam Engines was presented as well as the question of Public or Privately Controlled Electrical Companies. These discussions were given according to parliamentary procedures so as to give each participant a chance to talk clearly before a group.

I wish to thank all who have taken an interest in our work. The exhibition was given in the High School.

Respectfully submitted,

JOSEPH O. LAFOND,

*Manual Arts Instructor.*

## REPORT OF DOMESTIC ARTS DEPARTMENT

---

*To the Superintendent of Schools and Members of the School Board:*

I respectfully submit my annual report of the work done in the Domestic Arts Department of the Somersworth Schools.

The seventh grade girls canned fruits and vegetables, made jelly and relishes. They planned, prepared and served to parents and friends six balanced meals, suitable to the average home. Cost and nutritive values were considered. In sewing, grade seven made underwear, Christmas gifts and school dresses.

The girls of the special grade met with Grade VII and carried on the same work.

The eighth grade girls canned fruits and vegetables, made jelly and pickles. They planned, prepared and served six balanced meals to parents and friends. Attention was given to costs of foods in season, nutritive values, methods of preparation and service. In sewing they made underwear, Christmas gifts, household projects and wash dresses.

The High School freshman and sophomore classes have made a study of Textiles and Clothing. This included selection, construction and care and repair of clothing; also dress accessories, household linens, costume-design, pattern drafting, history of costume and social relationships.

The High School juniors and seniors have studied The Home, Its Management and Care. This included the house, its furnishings, management, appliances, budgeting and planning and caring of the home grounds.

The sophomore girls spent February 4th profitably in Boston, where they visited the Museum of Fine Arts

and spent the afternoon in the Textile departments of Jordan Marsh's, Shepard's and Filene's.

On May 23rd the High School Domestic Science classes entertained the Somersworth Department of Education at a "Get-to-gether."

The freshman and sophomore classes spent the week-end of June 9th at Wells Beach, which afforded an opportunity of cooperation in work and play.

The annual exhibition in conjunction with the Manual Arts and Drawing departments was held at the High School June 1st and 2nd.

Due to the complete destruction of the Domestic Science department in the Chandler School fire on December 14th, the grade work has since been carried on at the High School. Sufficient equipment has been added to the High School laboratory to meet the increased demands. Our greatest need now is another sewing machine.

I wish to thank the Superintendent, Members of the School Board, Teachers, and Parents for their helpful cooperation during the year.

Respectfully submitted,

MILDRED C. CASWELL,

*Teacher of Domestic Arts.*

## DRAWING INSTRUCTOR'S REPORT

---

*To the Superintendent of Schools and the Members of the School Board:*

Our real aim in teaching art is not to make artists of all our pupils. This is an impossibility from the start. We strive to instill into our students a love of harmony in line and color and we attempt to give them a foundation which will aid them to recognize true art. In addition, this groundwork may lead to a valuable means of self expression for many.

This knowledge of harmony in line and color often has a far-reaching effect. It may well influence the children later in many phases of their lives. It gives them a feeling for order, a knowledge of good spacing, arrangement and decoration.

In our attempt to acquaint the children with good art, we are handicapped by the lack of actual specimens near at hand. The museums are too far away to make it feasible to take groups on instruction trips. However, it is possible to have reproductions of famous paintings in our classrooms. The Chandler building had several copies of outstanding paintings which were unfortunately lost in the fire. The procuring of such pictures would be a worthy cause for any group to undertake.

The Chandler School fire destroyed all of the art supplies for the entire city. This necessarily curtailed the scope of our studies for a time. Nevertheless, we managed to fill in the gap until our new supplies arrived by the use of pencil and ink drawings. In fact, this type of work is given to the lower grades during the major portion of the year. I hope to use our new water colors with the older pupils next year.

I am anxious to introduce block printing into the eighth grade and the High School. This is a form of design which has an ever-increasing commercial value and which can be used by the pupils in everyday life. The majority of the work will be done with linoleum blocks, not only because they are less difficult for the beginner to cut, but also because they are much less expensive. The students will have an opportunity to make blocks for their own Christmas cards; to make monograms for stationery; designs for book-plates or any objects which may be of special interest to them.

Our exhibition this year was held June first and second in the High School auditorium. As in the past, the outstanding examples of the various types of work were on display. Although the attendance was gratifying, I wish more of the parents could have seen the work of their children in order that they might have a greater understanding of the results we are trying to achieve.

Respectfully submitted,

ALMA B. ROY,

*Drawing Instructor.*

## CLASS ODE

Tomorrow's near,
Dear friends of today,
And the parting time has come.
Each to his work with words of good cheer;
Thus, we'll leave our classmates dear.

Cheering we'll start, and smiling we'll end,
This long, rough voyage ahead.
Always to do and never pretend,
Is our goal whe're were'er led.
We'll try when skies turn grey,
Our very best to do;
When storms pass by, and 'tis clear bright day,
If we've always kept our goal in view,
We're sure to come smiling through.

Tomorrow's near,
Dawn of day comes fast,
We'll soon start upon life's way.
We say goodbye to all of our class,
'Til we meet some future day.
